# Trophy Hunting Information

## **Combination with Reduction Hunting**

We do not offer reduction hunting on its own. It is only available in combination with trophy hunting.

## **Wounded Animals Policy**

*Any animal that is hit will be charged accordingly. If a wounded animal leaves clear signs of blood or sweat, we will make every effort to track and retrieve it.*

## **Shooting Practice Requirement**

*Before heading into the field, all hunters are required to test their firearms and shooting skills on the shooting range to ensure safety and accuracy.*

## **Hunting Ethics and Conduct**

*We strictly follow our hunting regulations, which are based on respect—for the hunting guide, the animals, and the natural environment. Responsible and ethical hunting is our top priority.*

## **License and Permits**

*All hunters must possess valid hunting licenses and permits as required by Namibian law. We assist in obtaining the necessary documentation.*

## **Species Availability and Quotas**

*Hunting is only allowed for specific species, and within seasonal quotas, to ensure sustainable population management. Availability may vary depending on the time of year.*

## **Trophy Preparation and Export**

*We offer skinning, salting, and preparation of trophies for export. Assistance with paperwork and coordination with a taxidermist or shipping agent is available.*
